

## JONES ADMITS RFC DUE TO TAKE HEAVY LOSSES ON LOANS

### SENATE BANKING COMMITTEE CUTS THREE HUNDRED MILLIONS FROM BILL

By WILLIAM B. ARDEY  
WASHINGTON, July 22.—(AP)—The senate banking committee approved today the administration's \$2,490,000,000 lending bill and sent it to the senate for consideration Monday.

Majority Leader Barkley (D-Ky.) told reporters he was hopeful debate on the measure would be completed "in three or four days."

Barkley added, however, it still was doubtful whether congress could adjourn on the tentatively designated date of July 28.

The bill had been studied by the committee for several days. One of the principal witnesses advocating its passage was Jesse H. Jones, administrator of the new federal loan agency.

Jones advised the group the Reconstruction Finance Corporation was "going to have plenty of loans" on the loan bill already had made to business.

An unrevised record of Jones' testimony on President Roosevelt's new lending bill was circulated among committee members today. The printed text showed the RFC chairman was asked by Senator Townsend (R-De.) whether the lending agency had made all business loans which "were in any way eligible."

"We think we have," Jones answered. "We are not infallible. We make plenty of mistakes and plenty of bad loans. We will have a very substantial percentage of losses on our business loans."

"The liberalizing of policy is going to show up in the losses you take?" interjected Senator Adams (D-Colo.).

"Yes," Jones responded. "We are going to have plenty of losses."

Adams then asked whether the losses would "run as high as 10 to 20 per cent," and Jones replied, "I am ashamed to tell you what I think it will be. It will be plenty."

Jones testified the RFC was currently foreclosing on \$12,000,000 of industrial loans and that it would take a very heavy loss on the transaction.

Will Be Grants. "If anybody makes loans on a more liberal basis than we are making them now," he added, "they will be grants—they will not be loans."

(The RFC declined today to estimate how much it might lose on business loans. The latest financial statement showed it had made 5508 such loans, totaling \$260,986,262, since February, 1938. Banks later took up \$7,825,427 of these. In addition banks had participated in business loans to the amount of \$43,728,720. An RFC official said no figures showing the average loss on business loans were available.

(While Jones' committee testimony disclosed the RFC would lose on business loans, a letter he sent to President Roosevelt earlier this week brought out that on its total transactions, including all types of loans, the corporation actually was making money.

Sufficient Assets. (Resigning as RFC chairman to become federal loan administrator, Jones said the agency had "sound assets sufficient to pay all of its debts and return to the treasury the entire capital stock invested in it, with something additional."

(The committee report which Jones testified made a net reduction of \$310,000,000 in Mr. Roosevelt's \$2,800,000,000 lending program yesterday, and then turned to an amendment by Senator Maloney (D-Conn.) to add \$300,000,000 for public works grants to states and \$500,000,000 for federal public works projects.

The net reduction in the measure resulted from the \$250,000,000 slash in the \$750,000,000 toll roads program, a \$150,000,000 cut in the \$500,000,000 railroad equipment program, and the addition of \$50,000,000 for reclamation projects in the West.

Senator Barkley (D-Ky.), who introduced the bill, said the committee probably would complete action on the bill today and that, if it did, senate consideration would begin Monday. He added, however, it was doubtful whether congress could adjourn by the end of next week.

Before the banking committee indicated he thought a proposal to broaden RFC authority to insure loans to business was not essential, although he has said it might have a beneficial effect on the flow of business to what the corporation already is able to do in this direction. The broadened authority, urged by Senator Mead (D-N.Y.), was turned down by the committee yesterday.

NLRB Probe Ended. Chances Amendments. WASHINGTON, July 22.—(AP)—Chairman Thomas (D-Utah) of the senate labor committee declared today the house department of investigation the national labor relations board had eliminated the possibility of congressional action on proposed amendments to the Wagner act this session.

Previously the Utah senator had maintained there was a possibility for action this session. Thomas said the senate committee decided today to wind up the lengthy hearings on proposed amendments "the day that congress adjourns."

John L. Lewis, the CIO leader, and a long list of his supporters urged the senate committee, Thomas said, to oppose amendments at this time, including those requested by the AFL.

After the CIO testimony, Thomas said the senate committee will be called today to hear testimony from Secretary Perkins of labor and possibly Secretary Hopkins of the commerce department.

Tulsa Oilers copped a Saturday night victory over the Oklahoma City team without a hit. The game was called at the end of the fifth due to rain and trouble with the lighting equipment. Tulsa had not registered a hit off the delivery of Orval

Transportation Bill Debate. WASHINGTON, July 22.—(AP)—House leaders pushed the embattled transportation bill into further debate today but decided to defer final action until week-end absentees returned to the capital.

Poss of a provision to place certain Indiana without the jurisdiction of the interstate commerce commission announced they were ready to oppose its enactment with every possible parliamentary stratagem.

Among opponents contend this is a railroad bill, said Rep. Warren (D-N.C.), leader of a steering committee fighting the waterways section, "so we intend to test it with vital amendments."

The North Carolinian, declining to forecast the outcome, was equally reluctant to discuss the proposed amendments. It was learned, however, that Rep. South (D-Tex.), would try to eliminate the entire section dealing with water carriers.

Some members held it did not matter much what changes the house made because the bill already passed the senate in much different form and probably would be entirely rewritten when the two branches sought a compromise. Some informed legislators went so far as to predict this would take until next session.

WASHINGTON, July 22.—(AP)—Several Texas projects will be affected if the senate commerce committee follows the suggestion of Chairman Bailey (D-Nev.) and eliminates from the omnibus authorization bill for rivers and harbors all projects estimated to cost more than \$10,000,000, and all flood control projects.

Bailey said his committee had increased the house-approved authorizations from \$85,848,100 to \$407,855,600 and "there is no possibility of its passage in its present state."

He suggested eliminated items be written into separate bills and held over until congress reconvened in January.

Among projects involving more than \$10,000,000 was the Neches river and tributaries, Texas, \$28,000,000.

Flood control projects would include Colorado river, Texas, \$5,000,000; Colorado river, Texas, \$5,000,000; Pecos Bayou, Texas, \$2,500,000.

## PHILADELPHIA PAPER PUBLISHES STORY OF FIVE-POWER PACT

### ALLEGED AGREEMENT SETTLES ALL OUTSTANDING EUROPEAN PROBLEMS

WASHINGTON, July 22.—(AP)—Secretary Hull said today the state department had received no information through official channels to the effect that five European powers were agreed tentatively upon a pact designed to settle their major problem and preserve peace at least 25 years.

The Philadelphia Inquirer published today a story from its Washington Bureau saying a five power agreement which "settles every outstanding European problem" has been reached tentatively by Great Britain, France, Germany, Italy and Poland.

Hull, at his press conference, said the state department had received absolutely nothing in the way of official news reports, rumors or speculation on the subject through official channels.

PHILADELPHIA, July 22.—(AP)—The Philadelphia Inquirer carries a copyright dispatch from its Washington bureau today saying a five power agreement which settles every outstanding European problem has been reached tentatively by Great Britain, France, Germany, Italy and Poland.

The newspaper says Adolf Hitler and Benito Mussolini will meet with Prime Minister Chamberlain, Premier Daladier and Col. Joseph Beck, foreign minister of Poland, probably within two weeks, to ratify the agreement.

The agreement, the paper reported, consists of nine major points:

1. Danzig would be returned to Germany, but under the technical classification of a free port, thus leaving it open to Polish commerce.

2. The status of the Polish Corridor would be modified to satisfy both Germany and Poland, with Germany presumably having free access to East Prussia and Poland continuing to have free access to Danzig and her port of Gdynia.

3. Italy would be given representation on the directorate of the League of Nations.

4. Italy would be given participation rights on the railroad linking Addis Ababa with French-occupied Djibouti.

5. A neutralized zone would be established in North Africa, opposite Gibraltar to insure British sovereignty there.

6. The present border between France and Italy would be permanently guaranteed.

7. The present border between France and Germany would be permanently guaranteed.

8. All other existing European frontiers would be guaranteed for 25 years.

9. The five powers would limit their regular armies to not more than 300,000 men for 25 years.

The Inquirer said it had learned the agreement had been in negotiation for several months, thus accounting for the recent lull in customary turbulent Europe.

Official French Denial. PARIS, July 22.—(AP)—An official French spokesman declared today that reports published in the United States that a peace agreement had been reached tentatively by Britain, France, Germany, Italy and Poland were "without foundation."

Cincinnati Reds Held Opponents to Minimum of Runs

CINCINNATI, July 24.—(AP)—A new collection of hitless wonders came home today to a town slowly but surely developing a temperature curable only by a penicillin therapy.

By slapping down the Phillies twice yesterday, 5 to 2 and 4 to 0, the first place Reds ended their best tour of the year. The double win gave them a record of nine victories and four losses for a jaunt on which everybody said they'd be lucky to break even. They moved up to a nine-game lead.

But these were not the slug-ging Reds of spring who once were hitting a homer a day in those 13 games they averaged 4.384 runs a game, getting a total of 67.

In fact, the only thing to write home about was the simple fact that the eastern opposition, which included some mighty willow benders, averaged but 2.28 runs a game, or a total of 28.

Without a hitch, which was supposed to have Manager McKechnie worried, well, the Giants the Bees, and the Phillies suffered setbacks, the Reds twice. The biggest score in the series was for those two weeks was four runs.

Blame it on Paul Derringer, Gene Thompson, and Whitely Moore, but mostly on Buckly Walters. The other people got one run in his 27 innings, a near approach to a mathematical minimum.

Missions Manage Nose Out Sports To Retain Margin

By The Associated Press  
The San Antonio Missions were hit by four blows last night out with desperate affection for their first place in the Texas league race, came from behind in the ninth to beat Shreveport's Sports 4-3.

Meanwhile Houston's Butts took up the slack between themselves and the Missions by sweeping doubleheader with Beaumont 4-0 and 9-2; third place Dallas beat Fort Worth 7-4, and Tulsa edged out Oklahoma City 6-5, despite a two-inning rally in the eighth.

In chalking up their seventh straight victory the Missions took advantage of an error by Sports' third baseman Robert Kennedy and won on a single by Lucadello.

Sal Gattuso, Dallas pitcher who has been in a losing streak, took over in the second inning from Bob Uhle to break the jinx, by hurling the Rebels to victory.

Red Barrett and Harry Breeschen tied in six-hit performances for Houston.

Crockett Team In Finals State Legion Junior Baseball Meet

CROCKETT, July 24.—(AP)—The Crockett Callaway Cubs marched into the finals of the State American Legion junior baseball championship by eliminating Beaumont in the last of a three-game series.

Victors in the opening game at Beaumont Thursday by a 4 to 3 score, the Cubs dropped the first game of a doubleheader here yesterday 1-0, but came back to win the second 12 to 0.

Of teams from 32 Texas towns engaged in the tournament, only Crockett and Austin have not been eliminated. These will clash for the championship at a date to be announced later.

## FOUR SOUTHWESTERN STATES SEEK PARITY OF FREIGHT RATES

### FIVE-POINT PROGRAM FOR TAKING MATTER BEFORE ICC IS RECEIVED

HOT SPRINGS, Ark., July 22.—(AP)—Four southwestern states seeking a parity of freight rates received today a five-point program for taking their fight before the interstate commerce commission.

Judge Edgar Watkins, Atlanta, Ga., attorney for the Southeastern states governors conference, argued to representatives of Arkansas, Oklahoma, Texas, and Louisiana, that the

1. Agree on policy and select an individual or small committee with power to decide when different views are presented.

2. Determine whether all rates or only particular rates shall be included.

3. Be sure that sufficient finances are available.

4. Decide whether a particular complaint shall be filed or a general investigation sought.

5. Select counsel and rate witnesses.

Watkins, speaking from experience of having taken several rate cases before the ICC, warned the group their case would be materially weakened unless they possessed unity.

John F. Wells, Arkansas corporation commissioner, presided over the conference, called for the parity of organizing a steering committee to lay a demand before the ICC for equality of rates. The conference continued its discussions in executive session.

## Squirrel Stew Was Enjoyed Thursday At Daniel's Lake

KERENS, July 24.—(Sp.)—Enthusiastically reported as the annual squirrel stew given each year by the Kerens First National Bank force, a group of congenial friends staged a smaller but very enjoyable affair of like nature at the Daniel Lake Thursday night.

The famed stew with the usual pickles, relishes, tomatoes, onions, sliced cold meats, potato chips as accompaniments, served some 45 or 50 men.

After the meal, served picnic style on long tables south of the club house, the guests were spent in jest and talk. A number of out of town visitors were present.

## Building Is Being Remodeled For New Business Concern

Work has started on remodeling and renovating the building located at 12 North Eaton street, by the Garlick Construction Company of Chicago.

The building, formerly occupied by the Woolworth Company, will be refurnished on the inside with the enlargement of the display windows, and a complete white marble front added. An air-conditioning system will be installed.

The Franklin Women's Dress Shop, a chain organization with headquarters in New York, will occupy the building after Aug. 10.

## SPECULATION OVER APPOINTMENTS FOR NEW STATE BOARD

### RETURN OF O'DANIEL TO AUSTIN REVIVES INTEREST IN SELECTIONS

AUSTIN, July 21.—(P)—Return of Governor O'Daniel from a brief vacation at Mineral Wells revived speculation today as to his probable appointments to the important new state public welfare board.

Friends of the governor voiced opinion he would make his selections within two or three weeks. That would give the appointees time to familiarize themselves with their major prospective problems before September 1, when the board's life begins.

The new agency will be headed by a possible political danger to O'Daniel after September 1, many persons denied old age pensions or given small pensions may blame the governor due to the fact the pension administrative agency will be named by him. For the past three years, old age assistance has been administered by the state board of control, none of whose members is an O'Daniel appointee.

Several persons already have been mentioned as possibilities for membership on the non-salaried board. The governor has given no public intimation, however, that any of the guesses is correct. His nomination may be much of a surprise as were those of J. M. West, the Houston multimillionaire, and J. C. Hunter of Abilene to the chairmanship of the highway commission.

The new body not only will supervise determination of which persons are eligible for old age assistance but also will be in charge of the state role in relief to the destitute and child welfare services.

The board could either continue the pension eligibility plan now in operation or devise a new one. The investigating set-up under the new agency and its operating plan must be approved by the Federal Social Security Board before pension checks can be mailed.

## YOUNG BUSINESS MEN DIVIDE DOUBLE BILL FRIDAY NIGHT

The team standings in the YMCA-Navarro County League:

Team	W	L	Pct.
Girard Oilers	11	3	.788
American Well	9	6	.600
Superior	8	7	.533
Dr. Pepper	8	7	.533
Y.B.P.M.	6	9	.400
V. F. W.	2	12	.143

The Young Business Men, in a double-header Friday night game at the Magnolia Field, won the first game from the Veterans of Foreign Wars by a one point margin, 7 to 6, and dropped the second to the Dr. Pepper team, 10 to 5.

Due to the tie between the Superior and the Dr. Peppers a special game will be played Saturday night on the Magnolia Field to decide which team will occupy third place in the standings. The championship playoff is scheduled to start Monday night.

## NECHES, ANGELINA RIVER DAMS MAY BE CONSTRUCTED

### WAR DEPARTMENT RECOMMENDS HUGE SUM IF LOCAL AGENCIES LEND AID

WASHINGTON, July 21.—(P)—The war department recommended to congress expenditures of \$28,000,000 for flood control and power generating reservoirs on the Neches and Angelina rivers in Texas provided the state or other responsible local agencies assured contributions of \$5,000,000 at completion toward the initial cost.

The senate commerce committee has approved tentatively including the project in the omnibus rivers and harbors bill.

Army engineers estimated annual operation and maintenance costs at \$200,000 and annual local benefits at \$1,414,000, divided thusly:

Reduction of flood damages \$92,000; navigation benefits \$3,000; power values, \$902,000; municipal and industry water supply, \$150,000; irrigation water supply, \$160,000; recreation and wild life, \$75,000.

The benefits of the project are found commensurate with estimated annual charges of \$1,821,000.

The plan recommended two power storage reservoirs at Rockland on the Neches and McGee on the Angelina. One low-head power dam would be on the Neches between Rockland dam and the Angelina's mouth and another below the mouth of the Angelina.

The engineers expressed belief the Rockland-McGee Bear projects would allow navigation by shallow draft vessels to the lower end of the dams, miles above Beaumont, and stimulate development of adjacent territory.

They added a \$5,000,000 participation in cost by local interests should be reasonable because of increased value of the land for irrigation use at and in the vicinity of Beaumont and Port Arthur.

## YES, PRESENT WEATHER IS VERY HOT, BUT IT HAS BEEN HOTTER AND NO RECORDS ARE BEING SET

Don't trust your memory. This is not the hottest weather we ever had. Friday was a sizzler but the official reading of 106 was four degrees short of even modern records. On August 10, 1936, and on July 24, 1934, the mercury reached 110 for the highest in the section since the "good old days."

Readings of 105, 106, 107 and 108 are frequent in the record books for the past few years. In August 1897, there was a stretch of 15 days in which readings of 100 or more were recorded. August last year also had several days in succession in which 100 or more degrees were recorded.

This year was one of the coolest on record. Starting on July 2 there were six days in succession of 100 or more degree weather, then rains started. There were 12 days in the month that rain in varying amounts fell here. Keeping the temperature at a whole the lowest in several years.

Starting on July 5 this year the thermometer registered 100 or more each day until the peak of 105 was reached Saturday, July 8, then a break in the heat wave lasted several days. Starting with 105 on Saturday, July 15, the present heat wave has remained well above the 100 degree mark. The Friday reading of 106 being the high mark of the season.

Indications at the noon hour, however, were that the record was doomed for only a one day stand. The reading on the thermometer at the Day Sun office Friday at noon was 100 and at the same hour Saturday was 101.

## NEAR THREE HUNDRED MENTAL PATIENTS REMAIN IN JAILS AS HOSPITAL CONSTRUCTION ENDS

AUSTIN, July 21.—(P)—With completion of the current fiscal year's eleemosynary building program January, Texas still has 275 mental patients in jails as hospital construction ends.

The state mental hospital at Austin is the largest in the state. It is a 154-bed institution and state officials then will be forced to deny admission to an estimated 270 in jails and private homes.

Utilization early next year of a new 120-bed ward for white men at Wichita Falls and end hospitalization construction for the insane in the state for at least two years because Governor O'Daniel, with expressed regret, slashed \$1,375,000 from the fiscal year ending Aug. 31, 1937, the state mental institutions admitted 2,674 while last year the number increased to 3,438.

The admissions were made possible by an extremely large building program, including additions to buildings and new wards.

The steady gain in insanity cases in Texas is laid to increasing population, discovery of more threatening cases requiring expensive treatment through anti-epileptic campaigns, an increasing number of older people leading to prevalence of senile dementia and "fast living and dissipation."

## PRESIDENT EXPECTED TO SIGN HATCH BILL EVEN THOUGH DOES NOT LIKE SOME ITS PROVISIONS

WASHINGTON, July 22.—(P)—Usually well-informed senators forecast today that President Roosevelt would sign the Hatch bill despite some criticism he has made of the measure, which prohibits political activity by most federal employees.

The senate sent the bill to the White House yesterday without a vote being recorded against it, but only after a stormy scene developed over talk of side-tracking it.

Weeks ago, the chamber passed the bill unanimously. It came before the senators again on the question of accepting minor house amendments. Senator Walter Dill (NM) warned that to reject them would mean sending the measure "to the graveyard."

Those who predicted Mr. Roosevelt would sign the bill pointed to public utterances in which the president expressed approval of its major objectives.

There was much speculation among members of congress, however, about the practical political effect of the bill.

Some members have contended one provision would prohibit most federal workers from taking part in national political conventions, and thus would weaken any administrative effort to control the 1940 democratic nomination.

Vice President Garner told reporters after the senate passed the measure originally they could write it down the bill would become law. Garner said he would not sign the bill after the time he had spent in the senate, shaking hands with several senators.

## WOOL LABELING BILL PASSED BY SENATE AND SENT TO HOUSE DIVERGENT VIEWS AS TO EFFECT

WASHINGTON, July 22.—(P)—The wool labeling bill, passed by the senate yesterday, with the support of the wool growers' association and the wool handlers' association, is now in the hands of the house.

## LOCAL GUARD UNITS GIVEN INSTRUCTIONS ABOUT ENCAMPMENT

### TWO WEEKS PLANNED AT CAMP HULEN, PALACIOS, BEGINNING AUGUST 5

The Headquarters Battery and Battery D, 132nd Field Artillery, Texas National Guard, located in Corsicana have received their official orders concerning movement of troops and equipment, camp regulations, health and safety precautions, and other details pertaining to the two weeks encampment at Camp Hulen near Palacios beginning August 5.

Both Corsicana units and the Kerens battery will move a part of their equipment to the encampment of their men by their own trucks while the bulky equipment such as tents, instruments, personal baggage and 18 officers and men will be by rail. The 132nd Field Artillery Headquarters Battery and Battery D will share a baggage car while the Kerens unit will use a part of the Athens car. The detachment leaving by rail over the Southern Pacific will arrive at Palacios, Tex., at 12:30 p. m. August 5. Includes five enlisted men and one officer from each unit. Captain Randolph Robinson, Battery D; and First Lt. Don Newcomb, Headquarters Battery, will have charge of their work units on the train. Other enlisted men and equipment of Headquarters Battery under command of Capt. Festus A. Pierce will leave at 5:30 a. m. in three trucks and four station wagons will arrive at Palacios at 3:21 p. m. going by way of Madisonville and Bellville.

To Move Early.  
Battery D in command of First Lt. Paul Dresser and Second Lt. Kirkland, will move out at 4:40 a. m. in six trucks and one station wagon going by way of Mexia, Hearne, and El Campo. Battery D will also pull their four 75mm field guns and will arrive at Camp Hulen at 8:31 p. m. The Athens is approximately 273 miles from Corsicana.

Upon arrival at camp, tents will be pitched. Kitchens set up, and general police work will be done to get the area in proper condition. Sunday will also be used for completing this work and getting comfortably settled so that the regular training routine can be entered into Monday without delay.

A full day's work is scheduled each day, requiring men to be up at 5:30 for reveille and in bed by 10:30 p. m. Drill each day will start at 8:55 a. m.

## LOCAL YOUTHS AT STATE CONVENTION OF FUTURE FARMERS

Elliott Beale, A. T. Smith, Jr., and Jimmy Yarbrough, prospective vocational agricultural students of the Corsicana High school, represented this city at the state convention of Future Farmers held in Temple, July 20-22.

A total of 1,500 Future Farmers in attendance.

The local representatives were elected by popular vote at a recent meeting of students of the Corsicana High school who plan to take the new course next year.

## June Most Fatal Month In Traffic For Current Year

AUSTIN, July 22.—(P)—June was the month with the most traffic fatalities of the current year, state police announced today.

They said a loss of 132 lives exceeded by 12 an earlier estimate and was one more than the previous maximum, which was 131.

Despite the increase, the first half of 1939 showed a saving of lives over the same period a year ago. Traffic through June claimed 699 lives compared with 803. On the other hand, the total for the first half of 1938 showed a saving of lives over the same period a year ago.

The permits included: F. M. Wilson, 605 East Eleventh avenue, frame dwelling, \$125.

Austin Shoe company, 108 North Beaton street, remodel brick building, \$1,500.

J. L. Slate, 325 North Commerce street, repair brick building, \$800.

H. Kaufman, 107 North Beaton street, new roof, \$167.

W. H. Barth, 121 West Collin, addition to residence, \$295.

JOOF, 410 North Beaton, repairs to three-story brick building, \$100.

## Texas Future Farmers Elected Officers Saturday

TEMPLE, July 22.—(P)—More than 2,000 Texas Future Farmers of America closed their eleventh annual state convention here today after naming Haskell Lindley of Mount Vernon president, and selecting Houston for next year's convention city.

Other officers elected were H. W. Morris of Santa Anna, James Gunder of Claude and Bill Corfield of Granger. Vice president, Fred Dollar of Gaston, secretary, Leland Malone of Slocum, treasurer, K. Cowart of Junction, parliamentarian, Everett Austin of Boyd, historian, Oliver Rheinhardt of D'Hanis, reporter, and Kenneth Clifton of Montgomery, farm watch dog.

## Japanese Consul At Portland Is Killed In Crash

### BUTTE, Mont., July 21.—(P)—Motoaki Matsumura, Japanese consul at Portland, Ore., died today from injuries received in an automobile accident near here yesterday.

Matsumura, 38, suffered a probable fractured skull and other injuries when the car in which he rode with an attaché of the consulate, George M. Takao, overturned on a gravelled road as they were returning from a visit to Yellowstone Park. Takao was only slightly hurt.

At the hospital it was said that, in addition to the head injuries, Matsumura had internal injuries. He was driving at the time of the accident. The two men had made an extensive tour of Idaho and Wyoming and were preparing to visit Montana en route home.

## NATIONAL GUARDS WILL UNDERGO TEST MOBILIZATION SOON

### TEXAS INFANTRY, OKLAHOMA ARTILLERY REGIMENTS SELECTED

SAN ANTONIO, July 22.—(P)—The 142nd Infantry of the Texas National Guard and the 189th field artillery, Oklahoma National Guard, will undergo mobilization tests to determine the efficiency of regulations as applied to an assumed induction into the federal service of National Guard units, it was announced today at eighth corps area headquarters, Fort Sam Houston.

The National Guard regiments are in the eighth corps area, commanded by Maj. Gen. H. J. Brees, who designated them to war department orders.

The period from July 24 to August 10 has been designated for the 142nd Infantry to undergo its tests. This regiment is commanded by Col. John W. Page of Fort Worth.

Both regiments will carry out practically all of their test at home stations, and both will undergo physical examinations at their summer camps. However, the 142nd Infantry will receive the bulk of its training before going to camp, while the 189th field artillery will get its training after returning from camp.

The object of the tests, it was said, is not to complete the mobilization in record time, but to conduct it thoroughly and completely and, so far as is practicable, under such conditions as will result in regulations as applied to war department orders.

Brigades said this "serves no good purpose at all" because "considerable weight is given to the utterances of our presidents and unusual weight is given to Mr. Roosevelt's because so often in the past his intemperate utterances had had disastrous results."

## Explosion Kills Trio Of Miners; Another Injured

FORT SMITH, Ark., July 22.—(P)—An explosion killed three miners and painfully burned a fourth at the E. H. Noel company coal mine at Hackett, 12 miles south of here, today.

The dead were: Tommy Doss, 28, of Hackett; Willie Denne about 28, of Greenwood; Ed Raachels, 30, of Excelsior; Gilbert Ulmer, 29, of near Greenwood, who was removed to a hospital here with head and face burns.

First reports attributed the explosion to ignition of coal dust. The four men were the only persons in the mine when the accident occurred.

The four-man crew was engaged in development operations preparatory to the season opening several weeks away. The company employs about 75 miners at peak production.

## INDUSTRY AND DEMOCRACY

The labor troubles which bedevil the country today seem to be a great part of the nation to be the result of misunderstanding fundamental needs and principles. Factional disputes within the ranks of union labor tie up industries on which the bread and butter of all workers depend. The fight for prestige between leaders or groups works against the prestige of the whole labor movement. It hampers the progress and prosperity of all of us.

What does this country need today? What do workers need today? Production is of prime importance. Jobs are important. Employment, preferably in private industry, is vital to the solution of many problems, directly or indirectly related to it. Wages and hours need to be reasonable, meeting the requirements of health, production, leisure and decent living. But reasonable arrangements cannot be made between leader who are angry, or jealous, or selfish, or pigheaded.

There must be compromise, co-operation, study of conditions and possibilities, recognition of basic rights, fairness to the other fellow—employer or employee—facing of facts. Is this sort of common sense, level headedness, mutual decency beyond the capacity of adult Americans? It should not be, if we believe in our democracy and ourselves.

## NEW LIFE IN BILL OF RIGHTS

In the last 12 months, says the current annual report of the American Civil Liberties Union, the constitutional guarantees of freedom and justice have received "unprecedented support." It cites the creation of a civil liberties unit in the Department of Justice and civil rights committees set up by the American Bar Association and many local associations. It lists a series of important decisions by the United States Supreme Court, particularly the one ending Mayor Frank Hague's interference with free speech and assembly in Jersey City.

"Interference with the rights of political, racial and religious minorities has steadily diminished," continues the report, "though propaganda against them is ominously increasing. Censorship of movies, radio, the theatre and literature also declined. Self-regulation by the radio industry took on new vigor with the preparation of national standards which should make unnecessary further Federal legislation or government regulation to insure freedom from discrimination on the air."

On the warning side, the report points to the "ominous propaganda" and the growing feeling against all aliens and agitation for legislation aimed at them. Yet as prejudice becomes more vigorous and vocal, defense of its victims becomes more alert. For a long time we took our civil liberties for granted. Now that they are threatened, their vital importance to American life is recognized and a great body of alert citizens rallies to their support.

If the "have-not" nations were devoting all this military effort to productive pursuits, they'd have plen-

## JUST FOLKS

(Copyright, 1937, Edgar A. Guest)

**CRANKMIRE ON GOSSIP**  
Old Crankmire heard us gossiping as idle men do.  
We mentioned many a nasty thing best hidden out of view  
And when full throatedly we had worn the tales of shame and sin

He said to us: "Why don't you try a decent yarn to spin?"  
"Why don't you take some kindly deed you've seen your neighbor do  
And make it better than it was, and ten times bigger, too?"  
Why don't you fan a decent spark into a roaring flame,  
And over-advertise its worth the way you would a shame?

"This world would be a happier place with less of hurt and fear  
If gossipers whispered good about for other folks to hear,  
But every time I see a group with heads held close together  
I know they are not whispering praise of man or beast or weather."

## WHAT ABOUT PHILIPPINES?

The Philippine problem, which most Americans thought was disposed of a few years ago when a definite date was set for independence of the islands, is camping on the government's doorstep again. It looks very different since Japan went on the war-path, with the evident intention of gobbling up all eastern Asia and then pushing ahead into the south Pacific and Indian Oceans.

Paul V. McNutt, former High Commissioner of the Philippines, now urges permanent retention of them "for the salvation of the islands, the larger interests of America and the peace of the Pacific." As long as there will be peaceful progress in the Far East, if our flag come down, he thinks there will be trouble there for a generation.  
Most of the Filipinos seem to agree with him. President Manuel Quezon himself has been hedging lately on independence. Our government and public still seem undecided.

## SPORT INTERLUDE.

An enthusiastic reporter writes of a recent night baseball game between the Cleveland Indians and the Boston Red Sox:

"It was the kind of game that will be replayed in living rooms and business offices for years to come, the kind of game you read about but seldom see."

The spectators, more than 40,000 strong, were projected alternately "to heights of joyous hysteria and plunged to despair." They left the stadium a few minutes before midnight, "trembling with nervous exhaustion after ten innings of a spine-tingler that could have been taken out of the pages of a Frank Merriwell book."

That's the U. S. A., for you. A crowd has a whale of a good time, like that, and forgets Europe and Wall Street and Washington and the office and personal worries. And the next day it's on the job again, a bit sleepy, no doubt, but tackling things with surprisingly renewed pep and courage.

Baseball is a sport, an amusement and a tonic to Americans.

## TWO-WAY AIR THREAT

A mock air raid carried out by a fleet of 150 British planes over France is excellent proof of the close co-operation of the two nations. Practice flights of this kind are not often made over foreign territory. This one obviously was intended as an object lesson for Berlin and Rome as much as a test of the British air squadron. The distance covered from the British bases to the south of France and back home again was equivalent to a round trip flight to Berlin.

A similar mass flight of French planes will be made soon over the British Isles. More extensive maneuvers are expected to follow, giving the pilots of both countries experience in navigating over foreign territory.

German and Italian planes, no doubt, can fly as far and as fast, but the British and French exchange flights are nevertheless timely reminders that any war in the air will not be one-sided.

## YOU'LL FIND HIM IN THE MOST UNEXPECTED PLACES

**NEWS ITEM**—Hundreds of lives are lost every summer because swimmers, both young and old, continue to swim at unguarded beaches, abandoned quarries and in other dangerous waters.

## HUMAN VALUES

It was a pretty good speech that Ambassador Bill Bullitt delivered in France on the Fourth. Human beings, he suggested, "are ends in themselves, and not instruments to be employed by the will of a powerful individual."

It is the same idea that our American poet-seer, Walt Whitman, expressed when he maintained that the purpose of life is "the making of the best person." In other words, government exists for the sake of the individual, and not the individual for the sake of the government.

"Nations which believe, as do the Americans and French and British," continued Mr. Bullitt, "that human beings are an end in themselves and not instruments to be employed by a powerful individual, naturally seek to achieve their aims without war."

It is well for Americans, as believers in and practitioners of democracy, to keep this faith clear and strong. In the present state of the world, this is "what it's all about."

## MERCIFUL WAR RULES

The proposals made by Herbert Hoover, that the nations be pledged not to attack food ships in time of war and not to bomb civilian populations, are admirable. They might be regarded as a final effort to insure the preservation of a little ordinary human decency in the "next war." Mr. Hoover knows he may seem quixotic, but takes a chance.

He would have vessels laden solely with food placed on the same immunity basis as hospital ships, passing freely and safely regardless of blockades. He would have a return to the old, humane practice generally observed before the last big war, with "no bombing except in the field of actual fighting on land or sea, and at works devoted strictly to munitions."

The relics of civilization, however, went by the board in the World War, and were still more flagrantly violated in the Spanish war, and there is little hope for their revival now. The whole conduct of the recent war in Spain suggests that in the next general war, if there is one, all the traditional decencies which civilized nations tried to preserve in the old days will be ignored, and there will be no limit to slaughter of civilians, regardless of age or sex.

If Tony Galento and Joe Louis fight again, we'd like to see 'em do it verbally, in words of more than one syllable.

## Lower Colorado Electric Power Goes T. P. &amp; L.

WASHINGTON, July 21.—(AP)—Representative Lyndon B. Johnson (D-Tex.) disclosed today the lower Colorado river authority of Texas had signed a contract with the Texas Power and Light company for the sale of surplus electrical energy produced at the authority's government financed dams.

He also made public a letter from President Roosevelt commending the LCRU and the T. P. & L. for their co-operative spirit in the conclusion of the contract.

Under the terms of the contract the LCRU would deliver a maximum of 45,000 kilowatts power annually to the private utility for \$700,000. Firm power under the contract would total 18,000 kilowatts, secondary or dump power the remaining 27,000 kilowatts.

Roosevelt's letter in response to one he received from Johnson in which terms of the contract were outlined, stated:

"I was glad to receive your letter telling of the progress of the Colorado River Authority. It shows that it is possible for a neighboring private utility to co-operate with a public power development to the advantage of both and the public. I hope this co-operation will be manifested in other areas where similar problems arise."

The LCRU has four power dams in Central Texas near Austin. The authority retained in the contract the privilege of rescheduling power proposed to be delivered to the T. P. & L. to supply municipal and public agencies when more power is needed for that purpose.

The T. P. & L. agreed to pass on to the public any savings it may accrue from the purchase of LCRU power. The T. P. & L. and its affiliated companies serve scores of cities through Texas.

The LCRU was expected to begin operation by Aug. 1 of power distributing facilities in 16 Central Texas counties which it is purchasing from the T. P. & L. for \$5,000,000, Johnson said.

He added that a routine final checkup by RFC agents into the contract was necessary to complete the transaction. The RFC is lending the authority the \$5,000,000.

With these facilities, the LCRU will serve about 15,000 customers in some 60 towns and cities, including Austin.

The LCRU power to be distributed in the T. P. & L. contract just signed is about that expected to be consumed in both Austin and the 16-county area now served by the private utility.

## SPECIAL COMMITTEE IN SWEEPING PROBE ACTIVITIES NLRB

## INVESTIGATION ORDERED BY HOUSE TO HAVE BOARD CRITIC AS CHAIRMAN

WASHINGTON, July 21.—(AP)—With a critic of the Wagner act as its probable chairman, a special committee of five house members will begin a far-reaching investigation into activities of the national labor relations board shortly after congress adjourns.

The investigation was ordered yesterday in the house. An almost solid Republican delegation joined a sizeable Democratic bloc in a veritable plea of labor committee members to await consideration of Wagner act amendments.

If house precedent is followed, the investigating group will be headed by Representative Smith (D-Va.) and composed of the resolution and who voted against the Wagner act. Speaker Bankhead will appoint the committee members.

The committee will have full subpoena powers. The house directed it to find out whether the labor board has been fair in its interpretation of the Wagner act and check up on the general effects of the law on employer-employee relations.

The committee also will have the right to suggest amendments to the Wagner act and recommend changes in the personnel of the labor board.

Chairman Norton (D-N.J.) of the labor committee denounced the proposal as one to "usurp" the powers of his committee. Smith, he shouted, "is the last man in the world to pass upon labor legislation."

At one point in the debate, Smith asserted:

"I voted against the national labor relations act when it first came before congress, because it was palpably unconstitutional. But time has changed the situation and the supreme court has changed the constitution."

Representative Ranspock (D-Ga.) assisted Mrs. Norton in her fight. He said that while he had not always agreed with the labor board, an investigation by a special committee "would make worthless the work of the labor committee," which has been holding hearings for 10 weeks on Wagner act amendments.

## MANY ADDITIONS

## NORTHSIDE BAPTIST CHURCH IN REVIVAL

With just six of the 15-day meeting passed there have been 31 additions to the church. This is just 66 short of our goal of 100 additions this month.

The evangelist, Rev. Jack Goff, Thursday evening on the subject "Why Some Folks Are Not Saved." There were 13 additions as a result of this service.

More seats have been added to the church, and growing crowds. The public is invited.—Reporter.

## WOMEN AND GIRLS OF COUNTY CLUBS IN ANNUAL SESSION

## MORE THAN THREE HUNDRED MET THURSDAY LIVE-STOCK FAIR GROUNDS

More than 300 women and girls of Navarro county clubs attended the annual meeting of the Home Demonstration Council and Girls' 4-H clubs held Thursday at the Corsicana Livestock and Agricultural Show grounds. A varied, interesting, and instructive program was carried out, it was reported.

Sing-songs, reports on the recent short course attended at College Station, etc., were featured during the morning.

Corbet was awarded the prize of having the largest number of club members present, while Jack Valley gained recognition for bringing the largest number of visitors.

Other clubs represented were Roane, White's Chapel, Bazette, Barry, Independence, Stansell, Emhouse, Oak Valley and Jones Ranch.

A style show and canned products demonstration was sponsored during the afternoon and winners announced included:

1. Best decorator dress, Oleta McCreary, Roane club.  
2. Best co-operator dress, Jeanette Henry, Rice club.

3. Canned products demonstration exhibit, Elizabeth Finch, Purley club.  
4. Best co-operators' canned products exhibit, Barbara Harper, Oak Valley.

5. Best apron, Betty Ray Willis, Headquarters.  
6. Best apron, Betty Ray Willis, Headquarters.

White's Chapel received the prize in the contest of skits, songs, plays, games, etc. A skit entitled "Welcoming the New Minister," was given by the White's Chapel club.

Margie Mae Pope of White's Chapel won the first prize in the impromptu program feature contest.

Club pins were awarded to the 4-H club girls who completed all goals in the bedroom and orchard contests for 1938 as follows:

Billie Gwendolyn Stiles, Purley; Elizabeth Finch, Purley; Gwendolyn Lence, Frances Lee; Stella Richardson, Ruth Nutt; Nelma Lee McKee, Velma McKee, Ruth York, and Jean York, all of the Richmond club.

A gold star pin was awarded to Ruth York of Richmond for outstanding work in 4-H club work in 1938, having completed five years' work in three demonstrations, Miss Clara E. Rettiger, county home agent, stated.

## SUNDAY EXCELLENT DAY ALL SERVICES FIRST METHODIST

Sunday was an excellent day at the First Methodist church and Sunday School, the largest congregation of the summer season being present at the morning church hour, and following the sermon by Dr. P. E. Riley, the pastor, eight united with the church.

The morning sermon subject was "Transforming the Commonplace," the Chamber of Commerce quartet, composed of Messrs. E. E. Burkhardt, W. B. Waddill, N. G. Hardin and M. A. Spurgeon, brought special music.

At the night church hour continuing his theme on "The Christian Personality," his subject was "Blessed Are the Peacemakers." The choir brought special music. Dr. Riley stated in his night sermon that if the nations of the world would really practice the teachings on Jesus on the question of peace that there would never be any more wars.

There was 304 present at Sunday School, 37 men heard Guy M. Gibson teach the Brotherhood Bible class. There were 20 men present in the Young Men's Bible class. Sunday School attendance was an increase over last Sunday and last year.

There was a missionary program in the adult department. The Young Woman's Bible class had charge of the program in the young adult department. Margaret Metcalf had charge of the program in the high school department. Miss Winkler Pierce presided in the intermediate department. Leiland Morton was the leader in the young people's evening services, and Mary Ryle was the leader in the intermediate league. The stay-for-church club of the young people had refreshments with Mr. and Mrs. B. C. McDonald.

The Boy Scouts met tonight at 7:30 o'clock. Regular church night services Wednesday night at 8 o'clock conducted by the pastor, altar choir rehearsal Thursday night.

## Galento Is Having Most Fun of Life, But It's Near End

NEW YORK, July 24.—(AP)—In a shameless display of bravado, Tony Galento will have to put away his toys some hot day next month and buckle down to training for his Sept. 7 fight with Young Lou Nova in Philadelphia. Tony right now is having more fun and making more easy money than he used to think there was in the world, and all because he came within a couple of punches of beating his opponent, who was battered out by Champion Joe Louis.

Every day or two, Tony and his sun-dogging manager, Russell Jacobs, climb aboard an airplane and fly out to some new out-post where Tony exhibits the mighty left that put Louis on the canvas. For each appearance he gets something like \$1,000 and expenses.

The fans love him for the game way he took his terrible licking.

He's completely convinced now that he practically knocked Louis' ears off, he's been told so often. His most highly-prized possession is a blown-up photo snapped by an alert Associated Press photographer at the instant Louis' foot hit Tony. It shows Tony standing menacingly over the stricken champ.

"Look at that," he groans. "I go nuts every time I look at it. All I needed was one more punch and I would have knocked out the bum. If they would only let me fight my own way."

## Corsicana Racing Horses Featured In "Fifty Years Ago"

An interesting item regarding early day horse-racing in Corsicana was contained Monday in the "Dallas and Texas 50 Years Ago" in the Dallas News as follows:

J. W. Mitten, Navarro county horseman, will leave Corsicana tonight for the Missouri racing circuit, taking Charlie M. and Highland Tom along to uphold the reputation of Texas in racing circles.

Corporation Court.

Four charges of operating automobiles without tail lights, one of assault, two of running over a stop sign, one of running through a red light, one of reckless driving, two of failing to stop before right turns on red lights, four of intoxication, one of intoxication and disturbing the peace, one of disturbing the peace, one of operating a car with a defective muffler, and one of making a U-turn in middle of the block on Beaton street brought offenders into the Corsicana Corporation Court Monday morning.

Major and Mrs. Dean Smith will be visited in Black River Village and Mrs. D. G. Grant in Carlsbad, while in Carlsbad they will make a trip to the famous cavern and spend a day in going through it.

## MODES of the MOMENT by Adelaide Kerr

Washable wardrobes have reached new heights on the ladder of hot weather chic. In this costume virtually everything except the hat can be brought back to cleanliness via the soap-and-water route. The frock is of powder blue rayon crepe, the gloves of white doekskin and the bag of a fabric, mottled-printed in pastels and chemically coated to make it washable. The little-girl hat is of white straw banded in navy blue.

## Corsicana and Powell Party Returned From Northwestern States

Misses Martha and Mariella Burke, who accompanied Mr. and Mrs. H. H. Hanks of Powell, and their son, Hamp Hanks, Jr., on a three weeks automobile pleasure trip to the Northwestern states and Canada, returned home Saturday.

In going, they visited places of interest in Colorado, the Yellowstone National Park in Wyoming, through Montana into Canada. Several days were spent in Calgary, Alberta, Banff and Lake Louise, crossing the mountains at Lake Louise, they visited Vancouver and Victoria.

The return trip was made via Washington and Oregon with stops at Spokane and Seattle, and places of interest in Idaho, Colorado and New Mexico.

## Corsicana Party to Spend Vacation In New Mexico Points

Mr. and Mrs. Neal Harris, Mrs. Frances Harris and Miss Katherine Harris, accompanied by Mrs. E. C. Huckabee, left early Sunday morning on their vacation, and will visit relatives in Carlsbad, New Mexico and Black River Village.

Major and Mrs. Dean Smith will be visited in Black River Village and Mrs. D. G. Grant in Carlsbad, while in Carlsbad they will make a trip to the famous cavern and spend a day in going through it.

## ALL SERVICES FULL GOSPEL CHURCH ARE LARGELY ATTENDED

God blessed in every service at the Full Gospel church Sunday. All services were well attended, and all who were present recognized the presence of the Lord.

"Splashed-over Christians" was the sermon subject on Sunday morning and Rev. Mr. Wethers read as a text Joel 2:23. We today as Christians, in order to be a part of the glorious church must walk in all the light that we have, and those of us who have little petty sins in our lives that we are not willing to give up are not members of this glorious church.

On Sunday night Rev. Mr. Wethers read from Acts 5 the story of how Ananias and Sapphira lied to the Holy Ghost and fell dead. We see people today who are not right with God and yet they constantly reject the workings of the Holy Spirit, and if they continue to do they will die in their sins, for we are told that God will not always strive with man.

Services of the week include prayer meeting Wednesday night at 7:45 and WMC Thursday afternoon at 2. Be in these services. You are extended a most cordial invitation to worship with us in every service.—Reporter.

## Sixth Birthday Of Kerens Boy Occasion For Party Saturday

KERENS, July 24.—(Sp.)—The sixth birthday of James Newton Bruner, son of Mr. and Mrs. V. D. Bruner, was celebrated in happy fashion Saturday, July 22, when 30 small boys and girls responded to invitations to a party at the family home from 6 to 8:30 p. m.

Lawn games such as London Bridge is Falling Down, Black Magic, Frog the Handkerchief, etc., were played, with Mrs. Bruner, Miss Percy Stockton and Mrs. Stella Bruner, grandmother of the honoree, directing the play.

At refreshment time the lovely birthday cake was brought outside and when cut was found to contain some sort of unique favor for each one present. Cherry punch was served with the cake and colored balloons and clusters of all-day suckers were passed as favors. Numbers of toys, wearing apparel and books were received by James Newton.

## Boy Scout Troop On Saturday Hike

Troop 242 went on a hike on Saturday morning at 8 o'clock. We hiked out to the water works and went in swimming after about 30 minutes. Some of them were hungry, so they got out and cooked breakfast, then went back in swimming. One boy passed a merit badge on swimming. Another boy passed fire building with one match and all the boys got a sunburn. We started back home at 3:35 and got to town at 4 o'clock. We all had a good time.—Scribe.

## The Ed M. Polk, Jr., And Daughter Return Enjoyable Vacation

Mr. and Mrs. Ed M. Polk, Jr., and daughter Ann, returned Sunday afternoon from their delightful sixteen-day trip in their car to New York City, and Rochester, Ind., where they spent several days with Mrs. Polk's sister, Mrs. J. W. Wright and family, and visited Chicago.

In going up they visited places of interest in Tennessee, Kentucky, North Carolina and Virginia, Washington, D. C. and on to New York by way of Philadelphia and Atlantic City, and through the Holland tunnel. Four or five days were spent in New York City with visits to the World's Fair and many points of interest.

The entire trip proved most delightful in every respect.

## Houston Residents Visit In Corsicana Sunday Afternoon

Ben Talbert and Mr. and Mrs. Bob Wheatley of Houston were visitors in Corsicana Sunday afternoon on their return to Houston from Fort Worth. Mr. Talbert, who spent his boyhood days in Corsicana, is auditor for the Jesse Jones interests in Houston.

While in Corsicana he visited some of his boyhood friends, including Byron Cheney, who is sick at his home.

Mrs. Wheatley, who was Miss Doris Cook, joined her mother in Fort Worth for the production of Casa Manana.

## Social Open Session Knights of Pythias On Tuesday Evening

There will be an open meeting and social session of the Corsicana lodge of Knights of Pythias on Tuesday evening at 8 o'clock at the city park, at which time tea, cold watermelons will be served and dominoes, forty-two and other games will be enjoyed. Members of the order and their families and friends are invited.

## Large Crowd At Methodist Revival Meeting Chatfield

Rev. John Neal, evangelist for the Chatfield Methodist meeting, preached to a large crowd Sunday night. Visitors from Waco, Dawson, Rice, Richards, Roanoke, Tulepe, Corsicana more than took up the seating capacity. A choir of thirty children and young people filled the out-of-door platform.

Claude Sands and a men's quartet from Corsicana furnished special music.

Rev. Mr. Neal preached a soul-stirring sermon on "Look to Your Ways." Before the message, he depicted the hunt with one of the dogs falling out in the middle of the hunt like people falling out in the middle of their obligations and opportunities.

Rev. Mr. Neal emphasized the fact that it isn't the "used-ones" but the "new-ones" that count for the church. He said it isn't churchiness that is going to save us... or belonging to any church... it's what we're doing about it right now. It is God who saves us and the church is God's instrument through which we work. If we are not working for Him, we are working against Him.

Rev. Dick Lowry, pastor of the church, invites all friends and interested people to attend this great out-of-door meeting. The arrangements are very pleasant, and a great blessing is to be derived from this great evangelist's preaching.—Reporter.

## FINANCES

(Continued From Page One)

ter which taxpayers should inquire into carefully when examining the budget for the coming year. It is needless to say that the purpose of remitting this money to the counties was not to increase county salaries or the number of political jobs.

Doubt Exceeds Valuation. "There is one county in Texas," he said, "where the local debt exceeds the valuation of all the property in the county. Another county has a debt of \$96.81 for each \$100 of tax-rendered value, another of \$79.67 and another of \$74.68. In those counties, if you own a home and have it paid for completely, without considering the national debt at all, you can see for yourself if the local government bond issues were paid off you simply would not have anything left. What would you give for a home in those counties?"

In discussing the bonded debt of various divisions of Navarro county (there is no county-wide bonded indebtedness in this county), County Auditor Cunningham pointed out that including all road districts, common and independent school divisions, there is slightly in excess of \$4,000,000 outstanding bonds, and that represents abatement within the county. The assessed valuations are about 30 or 35 per cent of the actual values, officials point out, making the outstanding bonded debt well down the scale. The above figures were of January 1, this year, and a number of bonds have been paid since that time.

The outstanding road bonds (much of which is cared for by the road assumption program) amount to approximately \$2,000,000. Common school districts bonds are listed at \$181,000 while the independent school districts (including Corsicana) are quoted at \$1,843,000, an approximate total of \$4,024,500.

## HEALTH, BEAUTY AND POISE

HOW TO IMPROVE YOUR PERSONALITY  
By VERONICA DENGEL

## THE "CIRCLE" EXERCISE

Our roof exercise for today is a fine one for flattening out protruding tummies and smoothing out bulges in the thighs. Lie flat on the back—and by the way, that on the back means so flat that the spine touches at every point. There should be no hollows at the small of the back. Put

the large circle around to the right, bending the knees gradually so that the knees are bent over the chest. At no time in making these circles should the feet or legs touch the floor—that's the part that is hard! You should make four complete circles before relaxing. Oh, I know you

Make Large Circles With The Legs And Feet

your hand back there and if you can get in the space between your back and the floor—you're not lying flat. Pull in at the tummy and push out at the spine until the back does touch, and keep it there!

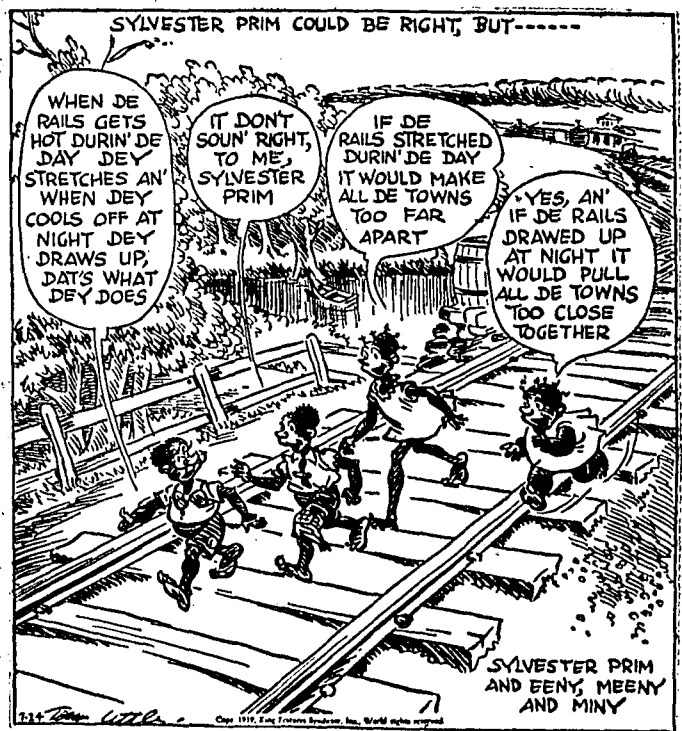

Now that you are really flattened out, draw the knees up to the chest, and stretch the arms out to the sides. Now make large circles with the feet. Beginning at the left and keeping the feet together, gradually straighten the legs out so that when they are straight with the body, there is no bend at the knees. Continue

won't in the beginning—you'll be groaning before you half finish the second circle. But as I love everything—again, practice makes perfect. And in this case, it is worth the effort, because your tummy muscles will be beautifully strengthened in a short time. If at first you don't succeed at this—try again—even my model was stiff with practice!

## ELLIOTT ROOSEVELT HAS BARTERED AWAY STATUS, SAYS PRIEST

SON OF PRESIDENT TAKEN TO TASK FOR HIS ATTACK UPON FATHER COUGHLIN

DETROIT, July 24.—(AP)—A charge Elliott Roosevelt, son of the president, has "bartered away" his status as a fair, independent and sincere news broadcaster came yesterday from the Rev. Edward Lodge Curran, of Brooklyn, N. Y., president of the Catholic International Truth Society.

Speaking on the Rev. Charles E. Coughlin's weekly radio hour in answer to young Roosevelt's criticism of the Royal Oak, Mich., priest July 15, Fr. Curran said: "By your own admission upon Fr. Coughlin, by your endorsement of censorship and by your false anti-Semitic cry of 'Wolf, wolf, you (Roosevelt) have bartered away your status as a fair, independent and sincere news broadcaster over the air waves of America.' You have bartered what you have to say over the radio."

Young Roosevelt's criticism was contained in a broadcast speech in which he commented radio censorship "might not be too high a price to pay if it will help insulate us against the anti-Semitic oratory of that radio priest."

Fr. Curran said that the private and public life of Fr. Coughlin will stand the spotlight of publicity much better than the private and public lives of some of those associated with you, Mr. Roosevelt, in your attempt to silence the voice of the common people of America."

They sat down on a hillside and he said he became familiar with her and that when she appeared he became panicky and appeared to garrote her with his belt, then strangled her. After that, he related, he drove in and down to a small pond and held her down in the water until he was satisfied she had drowned. He said he then buried her in the place where her body was found.

The Debrucker girl disappeared Friday after attending a 4-H Club meeting. Her body was found Saturday afternoon and Boyce was taken into custody the next morning. Police said they knew she had been working near the place where the body was found. Three years ago he was arrested for contributing to the delinquency of a nine-year-old girl.

## CUTTER GOES TO AID OF GROUND PANDORA

The coast guard cutter Morris, 125-foot patrol boat shown above in a recent picture, pushed across the Gulf of Alaska under forced draft from Seward to the aid of the schooner Pandora, reported grounded off Cape St. Elias in southeastern Alaska. The cutter reported all hands safe on the Pandora which was carrying a party of Oklahomans on a projected "northwest passage" journey.

## MORE WORKERS IN PLANTS OF GENERAL MOTORS CALLED OUT

TWELFTH PLANT OF BIG CORPORATION AFFECTED BY LATEST WALKOUT

DETROIT, July 24.—(AP)—Tool and die makers in a twelfth General Motors plant were called out on strike today while representatives of the CIO-United Automobile Workers and the corporation resumed negotiations for a settlement.

A group of skilled workers in Fisher Body Plant No. 1 in Flint joined the strike half an hour after noon today morning. A picket line was thrown about the plant, but production workers were permitted to pass through the gates.

Union representatives here were expected to accept formally today a proposal by James F. Dewey, federal labor conciliator, that the controversial question of wage rate be submitted to arbitration.

Union sources said from 400 to 500 employees responded to the strike call in the Fisher No. 1 plant at Flint this morning. A corporation spokesman said 317 of 556 tool and die workers joined the strike.

The workers called out today brought to approximately 7,500 the number affected in the 12 divisions of General Motors in Detroit, Pontiac, Saginaw and Flint in Michigan, and Cleveland, Ohio.

On account of the demand for more private lockers at Walker's Frozen Foods Co., this growing new institution for Corsicana, added 100 more lockers, and made other improvements for the convenience of patrons.

## TRIAL

(Continued From Page One) ney, today announced he would go into state court here in an effort to have his client's bond reduced and that he would also attempt to have the Baton Rouge bond of \$79,500 reduced. Including federal bond of \$15,000, Smith's bonds now total \$204,500.

Meanwhile Gov. Earl K. Long wrapped the mantle of the "Kingfish" cloak about him.

Governor Long, Huey's younger brother, succeeded Richard W. Leche to the governorship four weeks ago in the midst of charges of "irregularities" in funds of Louisiana State University.

In a speech at a national guard campment near Alexandria yesterday he asked for citizens' help to "clean up" the state and commented, "some papers are trying to scandalize Huey. They can't cry foul because of the Kingfish."

As indictments topped some of the kingpins of the Huey Long regime and others issued verbal blasts at him, Governor Long indicated today that he would follow closely in the grooves marked by the "Kingfish."

Over the weekend he appointed as his secretary Earle J. Clendenny, New Orleans stationer, and Huey's secretary, and in his speech at Alexandria pledging faithfulness to the state and policies while the band played "Every Man a King," Huey's old campaign song.

Frazar Resigns  
BATON ROUGE, La. July 24.—(AP)—Governor Earl K. Long announced today that E. Frazar, chairman of the Louisiana Highway Commission, had resigned the post.

Long said he had no explanation to make.

The governor said he would appoint Warren Ragland to the Louisiana Tax commission, in Frazar's place as chairman of the highway commission.

Frazar had only a few days ago taken over the highway commission job on Long's appointment after L. P. Abernathy resigned the highway commission chairmanship.

Mrs. Reese, daughter of the late Mr. and Mrs. E. Coleman, was born in Navarro county and resided here until a few years ago.

Surviving are two sons, Aubrey Reese, of Odessa, and Melchior Reese, of Salem, Ill.; three sisters, Mrs. Mollie Belle Speed and Mrs. Josie Dillard, both of Powell, and Mrs. Ella McWilliams.

Sutherland-McCammern Funeral Home will direct arrangements.

## FUNERAL SERVICES HELD MONDAY FOR ELIC KENDRICK

Funeral services for Elic Kendrick, 78, who died Saturday at his residence at 632 South Sixth, were held at 2 o'clock Monday afternoon at the Sutherland-McCammern Funeral Chapel, and interment was made in Oakwood cemetery.

Surviving are two sons, G. H. Kendrick and Thural Kendrick, and two daughters, Mrs. Lucille Morris and Miss Lillian Kendrick.

Rev. P. E. Riley, pastor of the First Methodist church, conducted the services.

## CONGRESS

(Continued From Page One) doubt congress could adjourn finally by Saturday.

Senator Townsend (R-Del) told reporters republicans would try to force the revision of the original measure below that fixed by the senate banking committee and would "make a real fight" to eliminate new borrowing powers.

Townsend said republicans probably would offer amendments to reduce the authority for various loans, then would seek to confine the program to the lending of money for the construction of roads and bridges.

There was much cloakroom discussion of the possibility that congress might dispose of the lending measure by the middle of next week.

As sent to the senate floor, the measure would authorize the RFC to borrow up to \$500,000,000 for toll roads, \$350,000,000 for railroad equipment, \$350,000,000 for project management and \$100,000,000 for rural electrification, \$100,000,000 for the Export-Import Bank, and \$90,000,000 for reclamation projects.

## AUTOMOBILE TRIP THROUGH JUNGLES BEEN COMPLETED

FIRST SUCH FEAT ACCOMPLISHED BY CHESTER A. WALLACE; BITTEN BY SNAKE

SAN ANTONIO, July 24.—(AP)—Chester A. Wallace, 38, member of the first party ever to cross central American jungles by automobile, rested here today after completing the first and hardest lap, about 2,700 miles, of a good-will trip from Nicaragua to the United States.

Receiving official documents and affidavits attending the feat, Wallace arrived yesterday. He was suffering from effects of a snake bite received in the Honduras jungle May 25, and planned to remain here for several days before going to the San Francisco and New York exhibitions.

Wallace said the first member of his party to drop out was Dr. Julio Ramon, world war veteran who served with the U. S. army and is now Nicaraguan consul in Miami, Fla. Ramon also was bitten by a poisonous snake in Honduras.

Ernesto Ruiz, delegate of the post office department of the Nicaraguan government, fell behind when he became ill after he was bitten by a species of the tsetse fly.

Both men plan to join Wallace by plane later. The fourth member of the party, Antonio Ruiz, younger brother of Ernesto, and representative of Nicaraguan boy scouts, was delayed at Laredo in arranging his passport.

Wallace said the youth's passport was good only for six months and he wanted to stay in this country two years to go to school. He also will join Wallace later.

Wallace said the tour was planned to further the building of a highway through Central America to South America from the northern continent.

New Trouble Ahead For Dixie Davis On Release From Prison

NEW YORK, July 24.—(AP)—Fresh troubles piled up today for J. Richard "Dixie" Davis, one-time lawyer for the Dutch Schultz policy racket, when he was released from the Bronx jail at 12:01 a. m. Friday.

The government wants Davis to tell further the building of a highway through Central America to South America from the northern continent.

Surviving are two sons, G. H. Kendrick and Thural Kendrick, and two daughters, Mrs. Lucille Morris and Miss Lillian Kendrick.

Rev. P. E. Riley, pastor of the First Methodist church, conducted the services.

## Pastor Kidnaped

CLEVELAND, July 24.—(AP)—The Rev. Gerould Goldner, held for ransom in the Holy Land, A note was brought to Jerusalem by messenger from Mr. Goldner, held by an Arab chieftain, saying he was safe.

That was the story a Coast Guard seaplane, which flew from Cape May, N. J., far out to Diamond Shoals off Norfolk, Va., brought back yesterday from the tanker Dungeness.

It could have been a tale from Joseph Conrad—only the plane brought to Norfolk Marine Hospital the two actual victims—one dead, the other severely injured.

The dead man was Jesse Orto, 27, the steward of Port Arthur, Texas; the other was Robert L. Dungeness, 42, of Gladesville, Texas, pulled from the sea by his erstwhile mates in a "rescue" that was really a capture.

This report was made by the owner of donkeys upon which Goldner and his father were riding when captured.

The donkey owner, Ishak Attia, said the young American was delivered to the monks on condition they hold him until dawn tomorrow before taking him to Jerusalem.

Ishak Attia said he had been carrying out a private investigation in order to get back his donkeys.

In Jerusalem, officials and friends of the 29-year-old Moga-dore, Ohio, pastor, expressed confidence he would return some time between tonight and dawn.

Earlier, A. L. Miller, general secretary of the Y. M. C. A., had handed over an unspecified sum to an intermediary at Bethlehem for delivery to the kidnappers.

It was understood this was to be regarded as a "down payment" with the stipulation an additional sum would be paid when Goldner was freed.

There was one report the kidnappers had reduced their original ransom demand from \$500 to \$2,500.

## MEMBER OF TANKER CREW GOES BERSERK AND KILLS STEWARD

CRITICALLY INJURED OILER ON TANKER DUNGANNON ALSO; USED HAMMER

By GLADWIN HILL  
NEW YORK, July 24.—(AP)—The tanker Dungeness, steamed through the early morning mists off Cape Hatteras, and the second steward killed himself in the galley, oblivious to the crouching figure at the door.

Turning from the ice box with a side of beef, the steward was confronted by the second pumpman, in a fit of madness, clutching a menacing hammer.

The madman raised the hammer and crashed it down on the steward's skull—once, twice—a dozen times.

Then the galley stepped an ailer from the engine room, intent on his morning coffee. The "crazed" man leaped on him. The hammer thrashed through the air again.

Then the madman raged out onto the deck and plunged overboard, pursued by a dozen shouting crew members.

## SEEK WAY TO BOOST COTTONSEED PRICE; U. S. BUY SURPLUS

WASHINGTON, July 24.—(AP)—A proposal which members of congress have been asked to support would give cotton seed prices in Texas a boost by having the agriculture department take large quantities of land and cotton seed off the market.

The Association of Southern Commissioners of Agriculture, in forwarding the request, attached copies of a telegram sent by J. E. McDonald, Texas commissioner of agriculture, to Representative Klueberg (D-Tex.), who is chairman of
